Forecast for Tuesday 10 Nov 2020

Weather: A mainly cloudy day with outbreaks of light and patchy drizzly rain at times, quite a dull and damp feel in the morning. Perhaps more in the way of brightness in the afternoon. Conditions may be slightly better around the more northerly areas and there may be some cloud breaks here and some brighter spells. Further south lower cloud is likely to be more broken.

Chance of cloud free mountain/hill tops above 600m: In the south of the Peak District 50% chance of cloud free tops with bases around 300m. For the more northerly peaks 70% chance of cloud free tops with cloud bases around 400m.

Visibility: Generally moderate or good.
